THE PROBLEM

Medical Clinics are *Chaotic...*

Everyday, clinics must carefully choreograph hundreds of activities: clean and prep exam rooms, admit and manage patients, inform doctors where to go and what to do, etc. Most clinics use inefficient, costly or manual “solutions” to deal with this chaos resulting in subpar patient care, extra staffing costs and lost revenue opportunities.

OUR SOLUTION

This is why we built **CHIME**

CHIME dramatically reduces overhead, boosts efficiency and improves patient care by streamlining the day-to-day interactions between staff, patients, and exam rooms. By combining intelligent software with professional grade hardware CHIME transforms clinic operations, delivering the *right person*, to the *right place*, at the *right time*.

1. Check-in Kiosk

2. Central Dashboard

3. Patient Queue Display

4. Wall Mounted Tablets

Delivering the *right person*,
to the *right place*, at the *right time*

UNIQUE PARTNERSHIP

Magenta Health Partnership

CHIME was created by a talented team working closely with Magenta Health, a technology focused primary care clinic in Toronto. We continuously sought the input of their physicians, staff, and patients, who each provided critical insights. This process was crucial in creating an intelligent system that sits at the core of a clinic, transforming its operations.

COMPETITIVE ADVANTAGE

Transformative & Clinic Scale

Substantial overhead, inefficient use of resources and a lack of accurate metrics into operations are familiar challenges faced by many primary care clinics. However, most existing solutions either have limited scope, delivering only incremental improvements in a piecemeal fashion, or they focus on hospitals, costing millions to procure and implement.

CHIME is both transformative and clinic scale. Our system fundamentally changes how a clinic operates, end-to-end, while remaining affordable.

CHIME by the Numbers

\$230,000

Annual Value for a Clinic*

Reduce operational needs by 2 Support Staff

~ \$80,000

Increase clinic capacity by 2 – 3 Clinicians

~ \$150,000

*For a mid-sized clinic with 10 exam rooms
