

Implement iamsick.ca Online Appointment Booking at your Primary Care Practice

Highly customizable

- allow/restrict who can book
- restrict when appointments can be booked
- restrict how far in advance appointments can be booked
- allow/prevent same-day booking
- create a quick-link to your booking page:
<https://XYZclinic.empower.ca>
<https://empower.ca/XYZclinic>
- many other customizations

Support system navigation

- the empower.ca & iamsick.ca map shows all healthcare options nationally
- helps patients find family doctors accepting new patients
- easily let the public know whether you are accepting new patients
- supports centralized online appointment booking, and discourages rostered patients from using walk-in clinics
- if you provide a walk-in clinic, show real-time wait-times

Workflow-integrated

- OSCAR EMR-integrated (use your regular scheduler/workflow)
- designed to reduce no shows & staff burn-out

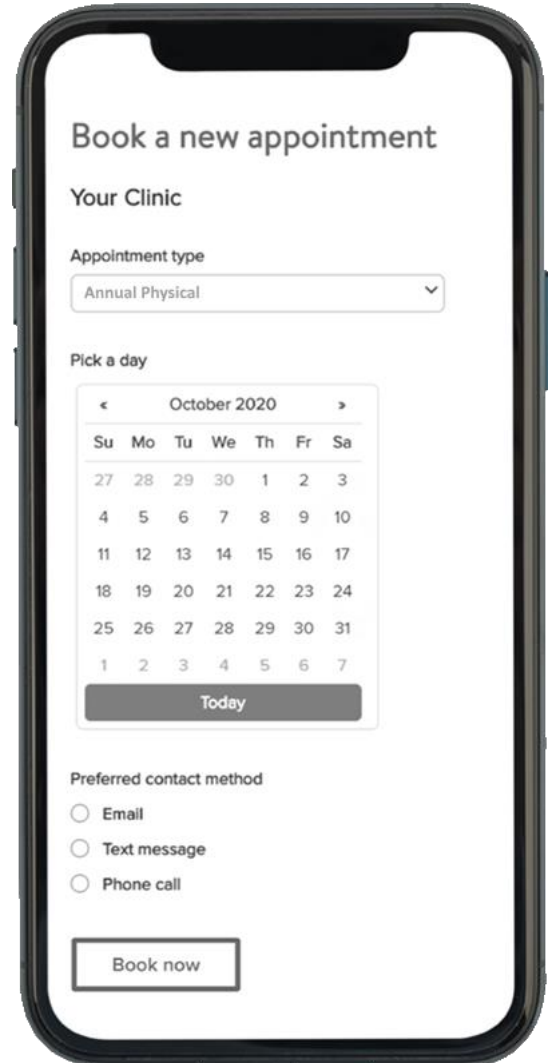

Pre-appointment Engagement

- automated reminders & appointment confirmation (email & SMS)
- paperless consent & COVID19 screening forms
- SMS paging feature (easily send patients a SMS alert/notifications)

Experienced team

- one of Canada's first EMR-integrated online appointment booking solutions
- offering online appointment booking to medical clinics (primary care, walk-in, and specialty clinics) and pharmacies since 2014
- offering centralized online appointment booking for COVID19 Assessment Centres & public health flu clinics
