ALL THE VIRTUAL ESSENTIALS

Save time and offer patients easy and reliable access to the best virtual care

No downloads or installations required

PHIPA, HIPAA, & PIPEDA compliant

Intuitive and reliable - designed for you

"The video and audio quality is way better than other platforms that I was using. I like that my patients don't have to log in/download any software for the video chat. Also, the program can send SMS to patients for reminders without costing me extra for this feature."

Vera C., Registered Social Worker
