

Medication Home Delivery And Continuous Care

Powered by **Pillway**

Did You Know that:

Over 40% of Canadians

do not take medication properly because the **process is too difficult**.¹

20% to 30% of Prescriptions

are **never filled**.²

50% of Medication

for chronic diseases are **not taken as prescribed**.³

23% of Canadians

attribute their nonadherence to forgetfulness; have **trouble remembering** when or if they have taken medication.⁴

Why make this your patients' choice?

We have:

Over 85% adherence rates

for those who use automatic reminders on the Pillway app.

100% fulfillment rate

our autofill allows you to set it and forget it.

5x more patient engagement

through notifications, chats, follow ups, reminders and easier access.

Built-in support

Never miss a dose and easily keep track of your medication via the app.

Auto refills and renewals

All refills and renewals are proactively managed so your patient **never has to worry** about running out of the medication.

Customized to meet patients' needs

We custom pack the **medication with accuracy** including pre-sorted packets or traditional vial bottles.

Always here

Our pharmacy care team **is on call** for questions, queries, and consultations.

How it works.

One

Write a prescription for the patient in OSCAR.

Two

Choose "Home Delivery" instead of "Save and Print" or "eSign and Print".

Three

eSign the Rx and choose "Send to Pillway".

That's it!

The Rx has been sent to Pillway, a digital pharmacy, and a pharmacist will reach out to the patient to schedule delivery.

To learn more visit pillway.com or call 1-833-PILLWAY (745-5929)
