

C-SPEECH

INTEGRATED VOICE RECOGNITION FOR HEALTHCARE SETTINGS

COMMAND AND CONTROL YOUR EMR OR DESKTOP WITH THE POWER OF VOICE

Streamline the documentation process by introducing voice technology into your workflow. Create reports, input patient information, compose e-mail and navigate third party applications with ease.

C-Speech is an affordable, secure, voice recognition engine allowing for dictation, review, and completion of reports by simply using voice.

Enjoy a seamlessly integrated workflow, including single sign-on functionality and full voice control of third party applications.

Enhance existing infrastructure or EMR platforms by adding state-of-the-art speech recognition for a fraction of the cost of competitive systems.

Benefit from the exceptional results produced by the C-Speech engine, even amid hectic or noisy environments, regardless of cadence or inflection.

Trust the latest technology. C-Speech is based on Deep Neural Networking, the same technology used by Siri and Google to provide consistent, accurate recognition with no need for training and no user profiles to manage.

Expedite the creation of time-sensitive records by dictating directly into your existing EMR and bypassing the transcription process.

Automate frequently used functions with the auto-command feature, allowing you to quickly perform tasks using voice, without keyboard intervention.

Stay productive with personalized autotexts. Setting up commonly used content or even full reports for easy inclusion as needed saves countless hours per month.

Dictate with confidence. The integrated medical vocabulary ensures accuracy and precision across care settings with the option for custom libraries.

“C-Speech is a very user-friendly application for the dictation of my medical notes into the patient record. It can easily be used by a beginner. I am extremely satisfied.”

*Dr. Charles Taschereau
Lévis-Métro Medical Clinic*

Interact with industry leading EMR systems. Navigate fields, dictate, fill out forms and complete reports, exclusively using voice. Contact your Crescendo representative at 1-800-724-2930 to determine compatibility with your system.
